

Unlocking Potential: Mastering Poultry Nutrition for Optimal Performance

ABOUT THE PROGRAM

A feed formulator, a techno-commercial right-hand, a de-risking trustee, a growth strategist, a financial savior and an advisor... are some of the key roles that an Enterprise expects from a **NexGen Nutritionist** today. Unfortunately, there is hardly any professional platform or co-learning space where bright and young Nutritionists and Formulators can learn by working together in game-changing live projects. More than individual brilliance, it is the variety of perspectives that can hone you up for the future requirements of business enterprises.

PROGRAM HIGHLIGHTS

- The Program is aimed at offering a 360-degree view of Poultry Nutrition across the phases of life cycle in Broilers, Layers and Breeder birds.
- All the sessions are designed to sensitize the participants about the challenges and resources in the daily life of a "Nutritionist of Tomorrow" with a variety of perspectives.
- Expected outcome of the sessions are to enable the participants to engage into more personalized and meaningful professional practice which may finally lead to solving problems for the clients that are directly linked to the BIG picture of an Enterprise.
- The sessions are delivered by eminent industry experts (25+ years of experience) in a crisp, methodical, and application-orientated manner. The objective of the program is to get your up-skilled to the best use of future technology, techniques and tactics that can set a new career momentum for YOU.
- All the sessions are planned in our Training Campus which houses our Research Stations, Commercial Farms, Advanced Poultry Diagnostic Labs and a Pellet Feed Mill.

Agrivet Research & Advisory Private Limited
